LABEL REWINDER IMPROVE YOUR WORK EFFICIENCY

Simple Operation Wide Application Rewind type:

Two-way winding Auto-Sync Rewind

Advantage:

Efficiency Improving; Time saving; Durable Metal material;
Cost-effective Labor-reduced

A Series industrial/Label rewriter automatic/two-way/Speed regulation

Stepping motor

Silent
Durable
Stable

Double baffle

flat
neat
Large diameter

Rewinding method

the rod rewind
Tension rewinding

Paper feeding/rewinding

Model: RM25

Parameters:

Winding speed	1-10inch/s
Max label width	150mm
Max label roll OD	230mm
Core size	25.4mm/38.1mm/76.2mm
Power supply	100V/240V 50/60Hz
Weight	about 4.5KG
Dimension	278mm*(W)110mm*(H)250mm(L)
Work environment	Temperature:0-45C humidity:85%

Product value:

RM25 series label rewriter, effectively improve the label printing the efficiency of the label rewind, achieve printing rewind without staff, solve the cumbersome manual rewind label process of marking staff, reduce the labor strength of staff, improve production efficiency, improve label printing quality (If label is not timely recovered, it is easy to stick to the ground dust, and it will be damaged if staff trample), it can help boss to save labor costs improve work efficiency, enhance company image, is a good helper for marking the staff, a good partner of business owner
